We Come Back

Return to calm · Children

Take a breath…
we come back

Chorus

We come back—
We come back.
Not all at once—
Just like that.
Breath by breath—
We come back.

Verse 1

When the room gets loud
And the rhythm slips,
When the moment scatters
From our fingertips—

We don’t rush to fix it,
We don’t push it through,
We find where we are…
And begin from true.

Chorus

We come back—
We come back.
Not all at once—
Just like that.
Breath by breath—
We come back.

Verse 2

Some are ready now,
Some need more time,
Some are finding quiet
Before they find a line.

You don’t have to hurry,
You don’t have to prove—
Coming back to center
Is the strongest move.

Bridge

Feet on the floor…
Air in the chest…
Nothing is broken—
We’re just finding rest.

Final Chorus

We come back—
We come back.
Together now—
Just like that.
Side by side—
We come back.

Outro

Whenever we need…
We come back.
