Learning’s Journey

Keep going · All ages

Verse 1

Sometimes the path bends backward,
Sometimes it feels unclear,
We thought we’d left this lesson
But it’s meeting us right here.
It’s not the end of knowing,
It’s not a step we missed,
It’s the way understanding
Learns how to exist.

Chorus

We circle, we wander, we try again,
That’s how learning grows.
We pause, we return, we begin again,
More than we ever know.
It’s not falling behind,
It’s finding our way—
We circle, we wander,
And learning stays.

Verse 2

There’s courage in repeating,
There’s wisdom in the slow,
Every time we come back
We bring something we didn’t know.
What felt like starting over
Is deeper than before,
The path looks new each time
Because we’re not the same as before.

Chorus

We circle, we wander, we try again,
That’s how learning grows.
We pause, we return, we begin again,
More than we ever know.
It’s not falling behind,
It’s finding our way—
We circle, we wander,
And learning stays.

Bridge (spoken or gently sung)

The spiral isn’t a mistake.
It’s how depth is made.
Every return brings meaning
That couldn’t come the first time.

Final Chorus (soft lift, then resolve)

We circle, we wander, we try again,
That’s how learning grows.
With every return, we see more clearly
Than we did before.
Step by step,
Day by day—
We circle, we wander,
And learning stays.

Outro (almost whispered)

Going back
Is how we go forward.
